direção de Garcia Bonnet I know
Margot is in the script for whoever is
writing Episode, 1-2? Oh, it was? I didn't
know that. I just figured she was killed off
early because it would've been a big deal.
I thought she could have come back later
on as another of the Six. I should know
better than that about people! I was
wondering why the episode was called
"The Suicide King" and not "The Suicide
Queen" like all the other episodes. I don't
think it was a double-whammy because at
least one of these two people were dead
in the early history of the Six in that
episode. If you read my comment about
the Oracle, I was describing the Dune
backstory as told in the comic issues
themselves. The one who was killed off
was the first of the Six. Also, I think that
they were killing off Enea, and this was
the lesser crime because Enea deserved

to die, but this would just be a personal vendetta on the part of Margot because Enea had something on her and, because she was royalty, she wasn't about to just let him die and keep all his wealth.
